Silver  
Solution Advisor

## Are Employees Getting What They Need from Technology? (Spoiler Alert: Nope.)

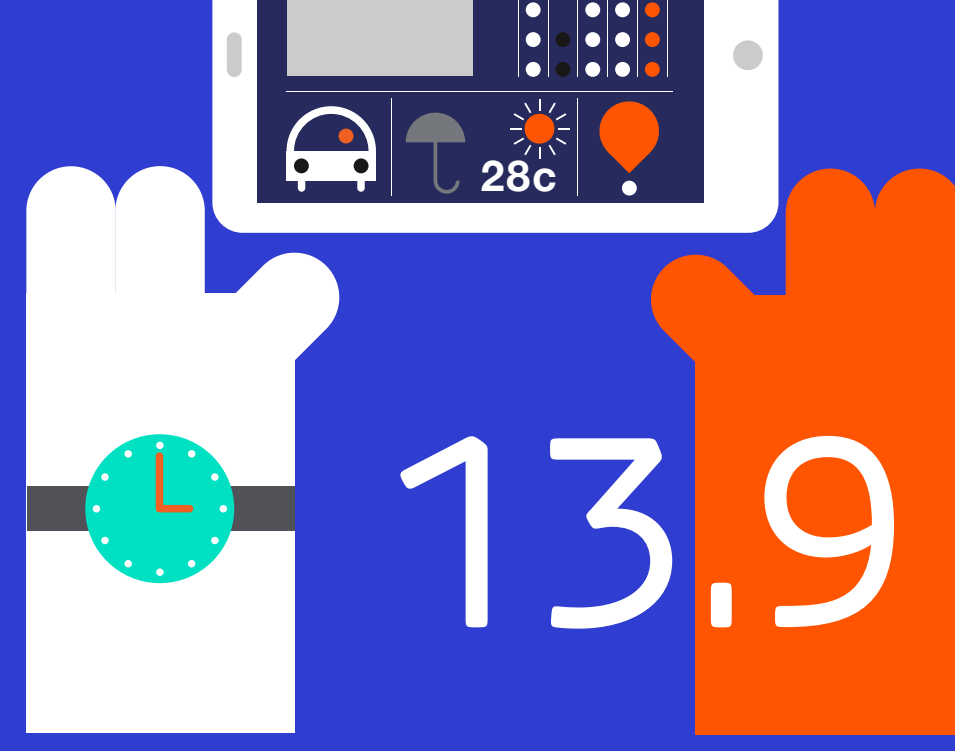

Technology that isn't designed to deliver a great employee experience creates friction and erodes productivity.

→ Daily number of apps the average worker has in play to do their job.

Up To **40%**

→ Loss of employee productivity due to the time spent switching between apps, platforms and tools.

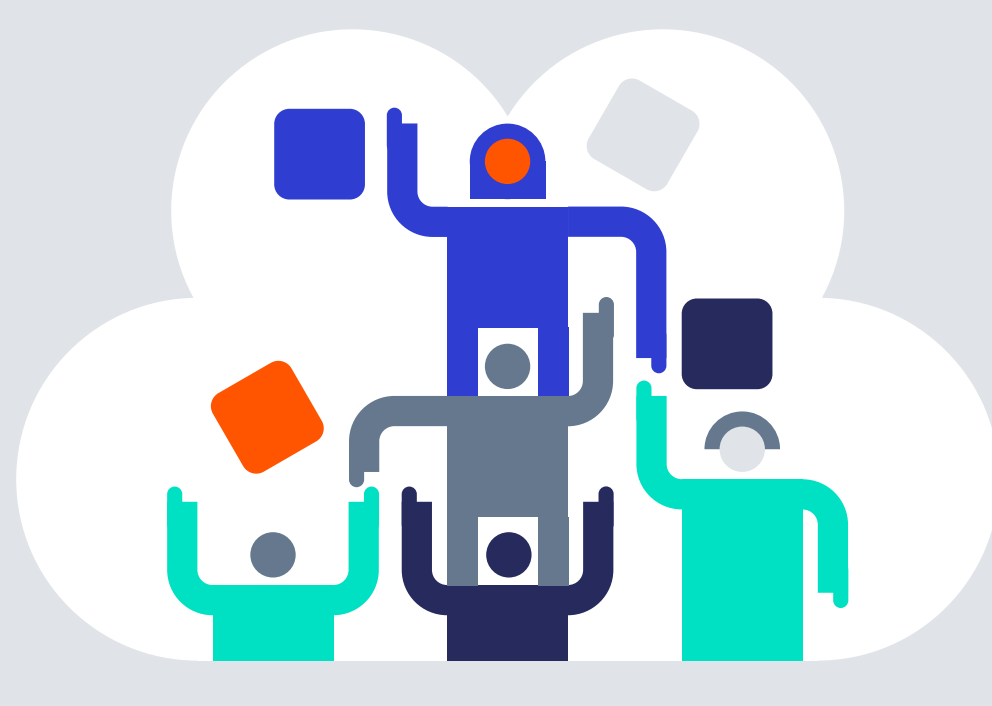

Only **34%**

→ Percentage of employees who say it is easy for them to authenticate or log in to the apps and devices they need.

→ Number of times a day workers are interrupted by digital tools.

## See What a Digital Transformation Can Do

IT has the power to create a great employee experience, simplify tasks and enable employees to focus on work that delivers business value.

Higher

**+ 18%**

→ Productivity improvement for fully engaged employees.

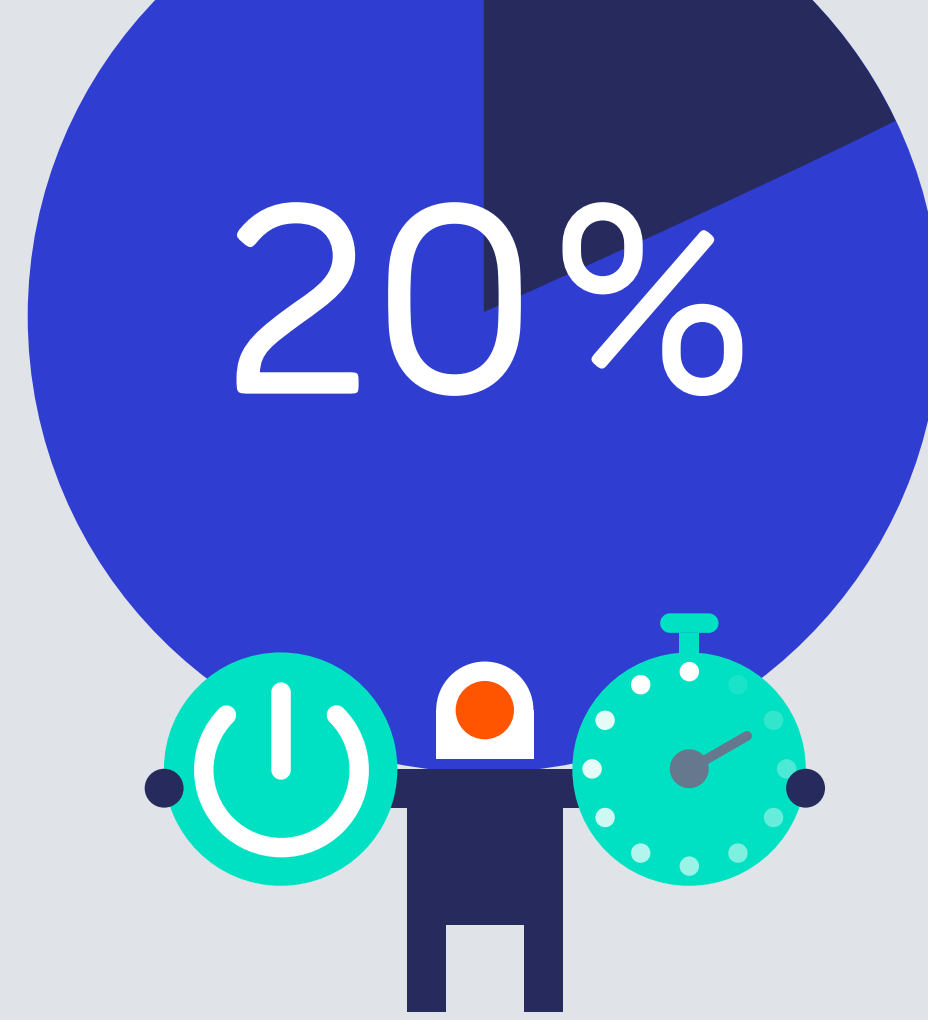

**18%**

→ Customer retention rates in organizations with highly engaged employees.

**2.3X**

Greater Revenue Growth

→ At organizations with high employee engagement (over a 3-year period).

→ Employee time saved when internal information is easily searchable.

## Change Starts With a Modern Digital Workspace

A Great Employee Experience Leads to Better Productivity & Engagement.

### Digital Features That Empower Employees

1. Consumer-Like User Experience
2. Unified Dashboard for Work Apps & Content
3. Single Sign-On Access from Any Device
4. Microapps That Guide & Automate Work
5. Natural Language Search for Work-Related Information
6. Intelligence That Can Automate Routine Tasks

One Platform Has It All:  
**Citrix Workspace.™**
